Be a part of history as Easterseals NH kicks-off our 90th Anniversary!

Zoey and Theo, a young brother and sister, have both made remarkable progress over the last year through integrated services at our **Early Childhood Centers of Excellence**. Zoey initially struggled with social interactions but has since thrived in our program, forming friendships with other children. Her brother, Theo, receives speech therapy and has made notable strides in his speech since beginning work with our teachers. "Knowing that my children are cared for, loved, and safe is just what every parent wants," their mother, Kate, shared.
